

On February 17, 2009, the American Recovery and Reinvestment Act (ARRA) was passed by Congress and signed into law by President Obama. ARRA provides increased support to several existing federal programs administered by states, creates new programs such as the State Fiscal Stabilization Fund, and offers opportunities for states to apply for competitive grant programs.

The American Recovery and Reinvestment Act's significant investment in North Carolina totaled almost \$19.5 billion, including assistance for those needing help the most through increases in unemployment benefits, Medicaid payments, and food stamps. In addition to those expanded services, ARRA gives hundreds of thousands of working North Carolinians a break through tax credits like the *Making Work Pay* tax credit and the *First Time Homebuyer's* tax credit.

The Recovery Act is not like earlier attempts to revive the nation's economy. It is not only a one-time infusion of federal funds; instead it is a long-term effort to restore economic expansion in the short-term, as well as prepare the nation's economy for stable, healthy long-term growth. Under the terms of the Recovery Act, support for North Carolina's economy will include both investments made directly by the federal government and investments of federal funds that are made under the oversight of the North Carolina state government.

American Recovery and Reinvestment Act Report, Guilford County

Guilford County received more than \$691 million in ARRA funding in grants, loans, and bonds. The following report outlines the various funding categories that contributed to the Guilford County total.

Pell Grant Awards:
23,429

Small Business Jobs:
681

Appliances rebated:
1,186

Family homes financed:
115

Recovery Act Totals:

Grants: \$489,341,140

Loans: \$32,472,689

Bonds: \$169,345,000

Total: \$691,158,829

Education

The Recovery Act placed a special emphasis on maintaining education funding. Governor Beverly Perdue furthered this commitment by pledging additional recovery funds from the Recovery Act to education, and leading North Carolina to additional funds by winning \$400 million in the Race to the Top program.

Most of the ARRA education funds are distributed to local schools through existing funding formulas. Special Education Funds and Title I funds go to schools based on eligible student enrollment. State Fiscal Stabilization Funds (SFSF) and the EduJobs grants were designed to hold schools harmless during the recession, and were distributed to public and charter schools. The school systems have spent the majority of the funds on staff and support. Some projects, such as Race to the Top, will be spent for purchasing products and services rather than salaries for staff.

Authorization for low/no interest bonds for school construction/renovation followed the Department of Public Instruction procedures with initial allotments to the school systems. If a school system could not utilize their allotment, it was released to other school systems that could utilize additional allotments.

Guilford County schools received \$202.4 million in education funding, including \$16.6 million in Special Education funds, \$16.0 million in Title I funds, \$84.5 million in SFSF funds, \$9.9 million in Race to the Top funding and a \$33.9 million bond allocation.

Pell Grants are an educational Assistance Program that provides grants to eligible students to receive post-secondary or vocational training. Because Pell Grants are not student loans, they allow students to receive financial assistance to further education and training without incurring additional debt. The American Recovery and Reinvestment Act increased the eligibility and the maximum amount of Pell Grants in 2009 and 2010 as a way to encourage educational opportunities, and to provide a way for eligible applicants to gain new job skills.

In Guilford County, had 23,429 students funded by Pell Grants; these grants were worth more than \$38.3 million.

Family Assistance

The Federal Department of Agriculture increased funding to their Single-Family home program with the ARRA. These resources assisted families in achieving the American Dream of home ownership through direct financial assistance (grants) or credit (loan guarantees). This program pumped more than \$729 million into North Carolina, providing assistance to more than 5,400 families.

In Guilford County, 115 families received assistance through this program totaling more than \$15.8 million.

The Department of Energy created the Energy Star Appliance rebate program to help stimulate the economy by incentivizing the purchase of new, more energy efficient appliances, and helping consumers by providing long-term

savings from their utility bills. The State Energy Office in the North Carolina Department of Commerce managed the program insuring North Carolina residents and retailers received the maximum benefit from this opportunity. North Carolina retailers sold more than 25,500 new energy efficiency appliances through this program, and North Carolina residents will enjoy energy savings for years to come. The program was so successful, that the State Energy Office reprogrammed additional funding to provide discounts to everyone participating in the program, bringing the total program value from \$8 up to \$10 Million.

Guilford County retailers sold 1,186 appliances through the Energy Star Appliance rebate program.

Small Businesses Assistance

The ARRA provided tax breaks, increased depreciation of business assets, and incentives for hiring for small businesses through the tax law changes found in Part B of the Act. The Recovery Act also established direct aid programs through the federal Small Business Administration (SBA) and US Department of Agriculture (USDA). These programs provided grants, loans and loan guarantees to grant small businesses access to much-needed operational credit during 2009 and 2010.

In Guilford County, 63 small businesses received SBA loan guarantees worth \$16.2 million. According to the small businesses receiving these loans, the Recovery Act saved or created 681 jobs.

Farm Assistance

The Supplemental Revenue Assistance Payments (SURE) Program is administered by the Farm Services Administration in the federal Department of Agriculture, which provides assistance to farmers suffering crop losses due to natural disasters. To qualify for the program a farm must have lost at least 10% of one crop during a natural disaster in a declared disaster county, or lost 50% of a crop during a disaster in a non-disaster county. North Carolina farmers received more than \$9 million in total payments under the ARRA-Funded SURE Program.

In Guilford County, \$35,923 was received in assistance to farmers because of crop loss to natural disasters.

CARS Program

The Car Allowance Rebate Program (CARS), more widely known as the 'Cash-for-Clunkers' program, provided an incentive for drivers of older, energy inefficient vehicles to upgrade to new cars. This program also provided a large economic impact in North Carolina, and North Carolina dealers received more than 18,000 trade-in vehicles through this program. North Carolina Car Dealers sold more than \$400,000,000 worth of new cars (recommended MSRP) through the CARS program. North Carolina drivers will save 172,130 miles per gallon through cars purchased through this program.

In Guilford County, car dealers sold 1,295 cars worth \$28 million through the ARRA CARS program.

Broadband Programs

The Recovery Act funded two dedicated high-speed broadband programs, the USDA's Broadband Initiatives Program (BIP), and the US Department of Commerce's Broadband Technology Opportunities Program (BTOP). The BIP focused on the creation of new service or the expansion of existing services in rural areas, while the BTOP focused on statewide or regional development of important broadband infrastructure.

In Guilford County, UNC Greensboro received at BTOP sub-award worth \$296,838.

Environment and Natural Resources Programs

ARRA funded several programs to protect the environment, or to develop natural resources more efficiently. These programs ranged from environmental clean-up, such as leaking underground storage tank abatement and Brownfields programs, to EPA clean air grants, wildfire prevention grants, and revolving funds to build, expand, or overhaul existing water and sewer programs. These programs provided nearly \$150 million across North Carolina.

In Guilford County, the City of Greensboro received a Brownfields remediation grant worth \$400,000. The City of High Point received a grant of \$1.3 million for sewer upgrades.

Green Energy Programs

One of the goals of ARRA was to provide grants to help conserve energy and assist in the development of a green economy. The State Energy Office in the North Carolina Department of Commerce received large grants for energy conservation under the American Recovery and Reinvestment Act. These grants include the Energy Efficiency Conservation Block Grant (EECBG), funded at just under \$20 million, and the State Energy Plan (SEP), funded at \$70 million. The State Energy Office then used these grants to make awards to businesses, non-profits, and local governments for various purposes.

In Guilford County, the Friendliest Hotel, received an SEP grant of \$500,000 to install variable frequency drives on all air handlers over 1-Hp, replace existing building supply and exhaust air systems with a fresh air make-up system, add a heat recovery chiller to the existing chiller system, update incandescent lighting fixtures with LEDs and standard plumbing fixtures with low-flow fixtures throughout the O. Henry Hotel in Greensboro, NC, to LEED Existing Buildings standards.

Military Programs

The American Recovery and Reinvestment Act included approximately \$7.4 billion in defense-related appropriations. This includes funding for all service areas and the Army Corps of Engineers. Recovery Act funding addressed some of the unique economic pressures faced by American service members because of their voluntary commitment to serve our nation. The Recovery Act included assistance to service members, upgrades aimed to improve the quality of life for troops and their families, funded three new facilities, and two new VA hospitals in North Carolina, addressing critical needs across the state. In addition to providing much needed facility improvements, this bill also provides more funding for our energy research programs, so that Department of Defense (DOD) can continue to lead the way in the national effort to achieve greater energy independence. North Carolina had 103 military projects funded for a total of \$166 million.

In Guilford County, the Department of the Navy contracted for nearly \$3 million in improvements to existing buildings, including interior renovations and the replacement of existing finishes, plumbing, electrical, and HVAC equipment and the replacement of the roof, rooftop HVACs equipment, new cooling tower, and resurfacing of parking areas.

Safety Net Programs

Safety net programs are the category of ARRA funding that consists of programs designed to help populations made particularly vulnerable by the economic crisis. These generally include increases in existing programs, most notably the increase in both benefit level and duration of unemployment payments. Increases in the amount and duration of unemployment payments makes up the largest chunk of safety net programs funded through the Recovery Act, totaling more than \$3.5 billion statewide over more than two years. Safety net programs such as unemployment insurance and SNAP (formerly known as Food Stamps), not only benefit the recipient, but have a proven economic impact on a community.

Guilford County residents received \$194.8 million in Unemployment Insurance increases during the 2 ½ year ARRA benefits increase. County residents also received \$30.6 million in SNAP benefit increases, and \$19.9 million in one-time payments of \$250 to social security recipients.

Guilford County received more than \$1 million for Head Start Programs.

Guilford County Feature Story

Recovery Act education bonds begin long planned projects in Guilford County

Recovery Act Education Bonds Begin Long Planned Projects in Guilford County

The American Recovery and Reinvestment Act placed a special emphasis on infrastructure projects as a way to immediately impact jobs in the engineering and construction sectors, and as a way to make important, lasting impact in communities. There were several mechanisms for this type of investment: additional funding for the USDA's Community Facilities Program, additional funding for water and sewer programs in states, special competitive grant programs for high-demand bridge and road projects, and a historic high-speed rail program to connect large metropolitan areas, to name a few.

The Recovery Act also established several new bond programs with zero or very low interest to allow state, local, and private entities to design construction and renovation projects at the ground level where these projects would have the most impact on a local economy. These bond programs gave the green light to many long-awaited projects across the state, including the development of new libraries, hospital facilities, recreational facilities, the construction of new schools, highways, water systems, and improvements to a host of critical infrastructure. North Carolina entities used more than \$3 billion in Recovery Act bond capacity.

The Recovery Act provided \$24.8 billion in bond authority to states and local governments for school infrastructure through two primary programs: a new Qualified School Construction Bonds (QSCBs) program and the expansion of the Qualified Zone Academy Bonds (QZABs) program. These are zero-interest, tax credit bond programs to provide a significant cost savings to school districts for construction and improvements. The Qualified School Construction Bond program provides Local Education Authorities with a method of funding construction/ repair/renovation of public school facilities or for land acquisition for a public school facility.

Several large school systems took advantage of the historic opportunity the Recovery-funded school construction bonds presented to replace outdated facilities or to build new schools to accommodate growing systems. Others, like the Guilford County School System used the Recovery Act bonds program to jumpstart long-planned improvements to existing facilities.

In 2008, voters in Guilford County approved a \$457 million bond program. Two large projects and several smaller renovations were funded through \$33 million in QSCB allocations. These two projects are the Allen Middle School expansion, and the replacement of the cafeteria at Grimsley High School.

The Allen Middle School project will add new classrooms, and an auxiliary gym addition. The cost of this project is \$7.2 million. Construction on the expansion should begin by the end of 2011. The Grimsley High School project will replace the existing cafeteria with a new building. This project is valued at around \$10 million. This project is in the development stage, and construction should begin by early 2012.

ⁱ Recipient Role are as follows: P is a prime recipient; S is a Sub-recipient; PV is a vendor to a prime recipient; SV is a vendor to a sub-recipient; L is a loan recipient.

ⁱⁱ Prime Amounts are unique prime awards within a county. These are entities who have received funding directly from a federal agency, and are required to report directly to www.federalreporting.gov

ⁱⁱⁱ Unique Sub Awards are amounts that flow into a county from a source that is NOT directly from a Federal Agency. Generally these are funds awarded to the North Carolina State Government that have been directed to a local source.

^{iv} Additional Economic Activity are economic activity attributable to a previous funding category. They may be a sub award by a prime recipient within a county, or a contract funded by one of the previous three columns. This economic activity is not counted toward the county total.
